I entered two withdrawals of 1000 euros within 2 days (you can't do more) and the finance department canceled them twice because according to them I hadn't entered the email in the electronic wallet on which I made the withdrawal. Which is absolutely false given that the Mail of the eZeeWallet wallet was already registered and then automatically exited and approved by the system.

Then these scoundrels denied me two live casino cashbacks foreseen in their promotions and which they had also sent me via email. Reason? They according to the terms and conditions can deny bonuses at any time at their convenience. When I requested the cashback, I had a deficit of around 6,000 euros.

Virtually useless customer support that replies to you with copy paste messages without addressing and solving problems.

Last thing, because that's not all, during two slot sessions I saw my balance drop by 280 euros without playing them.

So avoid joining this criminal casino as it is the absolute worst I have tried to play on. They do everything to make you lose money and are willing to do anything not to pay.

What Does a +200 Money Line Mean? A +200 money line would mean that if you placed a \$100 bet, you would win \$200. It also tells you that the team is not expected to win, as it is the underdog in the game.
