Understanding Ski Jumping: An Overview

Ski jumping is a thrilling winter sport where athletes descend a steep

ramp at high speeds, leap into the air, and aim to land the longest jump possibl

e before gliding to the finish line. But how are these impressive feats measured

and scored?

The Measurement of Ski Jumps: K-Point and Beyond

In ski jumping competitions, judges measure jumps from the takeoff to a

reference point called the “K-point,” which indicates the assessment

location for the distance covered by the athlete. The following table illustrate

s the relationship between jump distance (in meters), K-point. and maximum landi

ng point:

Scoring Ski Jumping: Judges’ Criteria

Judges evaluate ski jumps based on three primary factors:
