Football corners predictions is one of the fairly ne

w tips offered by tipsters and by us. Some say it's luck; predicti

ng corners in a football game, but we at AFootballReport find in corners very pr

ofitable markets especially in live events; when odds go very high as

the game evolves. So how do we predict corners? Of course as any other football &

prediction and corners are related to a number of pre-match and team f

actors. First of all we should see the type of game we're looking

for or the type of game we want to predict. Is it a game with a stro

ng favorite or just two equally strengthen teams that play. If it's a game w

ith a strong favorite probably; we should pay attention to the corners

race predictions as strong favorites always keep the ball in possession more th

an; the other teams and create more chances as they push forward almos

t during the whole game. Keep in mind in; live events that if the scor

e is in favor of the favorite team then this team would not be so; mot

ivated to create chances and would probably win less corners than in a draw even

t or from behind.

Second thing we; should use when making our corners tips is t

o see the teams lineups and tactic for the upcoming game. Target; tea

ms with more offensive tactics and teams that use wingers heavily in their attac

ks. For example, some good wingers for; the home team could easily pro

duce more than 10-20 crosses in the penalty area which very often defenders clea

r in; corners.

Corners in the late stage of the game are more likely to happen than in

the early minutes. Usually teams; are very careful in the opening min

utes of a football game and they try to enter the game more passively; than

aggressively. As the game continues depending on whether a team is losing

or winning the game is leading to; pushing forward and sending more pl

ayers to attack or defend. This leads to significantly increasing the number of

corners in; the last minutes and that is what we want when predicting
